

Binding cords

Binding cords

Binding cords are indispensable wherever it is necessary to bundle something together quickly and easily, or to make provisional fastenings. At a building site, for instance, it becomes possible to easily lash together dust and wind protection tarpaulins, or to secure light objects such as empty buckets, ladders or painters' tools for transport. In farming, binding cords are particularly suitable for tying up animals, and also for the many small jobs necessary around the farm, for instance to temporarily repair a loose garden gate or to fasten empty fruit boxes and other bits of equipment. And for domestic applications too, binding cords continue to be a favourite help for daily jobs.

Someone who always keeps a binding cord in the car can quickly fix the boot lid if it cannot on some occasion be properly shut when transporting large objects.

Unique in Germany

It is not just tradition that makes us specialists in binding cords and ropes. We are also the only manufacturer in Germany with four fully automatic machines for manufacturing binding cords. When working

shifts, therefore, we can also produce and supply larger quantities more quickly. We can even supply goods that we have in the warehouse under the terms of our 24 hour service: if your order reaches us by 10.00 in the morning, it will be shipped on the same day.

Quality from the master

Above all, however, the fully automatic production allows us to guarantee consistent quality – at the highest level. We are master craftsmen, and take pride in this even today. It stands behind our competent advice and in the special quality featured in our products.

Variety as the range

The range of goods we have on offer is very broad, and most of them are in stock. Whatever you are looking for: We offer binding cords

- in any colour
- in mixed and selected versions
- of jute, hemp, sisal or polypropylene
- in lengths from 50 to 450 cm
- with diameters from six to 14 mm
- with small or large loops

Our production also meets special requirements. Just ask us!

Ropes

Ropes, too, are practical and irreplaceable for many everyday purposes. They are particularly often used, for instance, on building sites as a hand lift for mortar buckets. But it is easy to think of many other possible applications. Once again, here, of course, you can count on our 24 hour service, friendly advice and high quality. Talk to us!

Ropes to measure Accessories as wanted

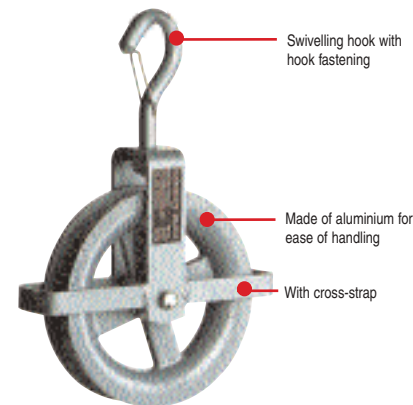

We make ropes out of a wide range of materials in a great range of lengths and with differently processed ends, and we always have a wide range in stock for you:

- Twisted hemp rope
- Sisal rope
- Polypropylene rope
- Polyamide rope

On hawsers, X-spools and flanged spools

Because we do the manufacturing ourselves, we can also supply unusual types at short notice.

In addition to this, we also can supply you the appropriate elevator rollers.

We manufacture ideas

Whatever idea you have about ropes - we will turn your idea into reality. Regardless of whether you give us precise specifications or only have the first sketches. We will be happy to advise you, and show you how the production can best be carried out.

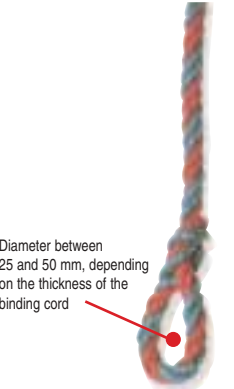

In-house production of swings...

Small loop

Large loop

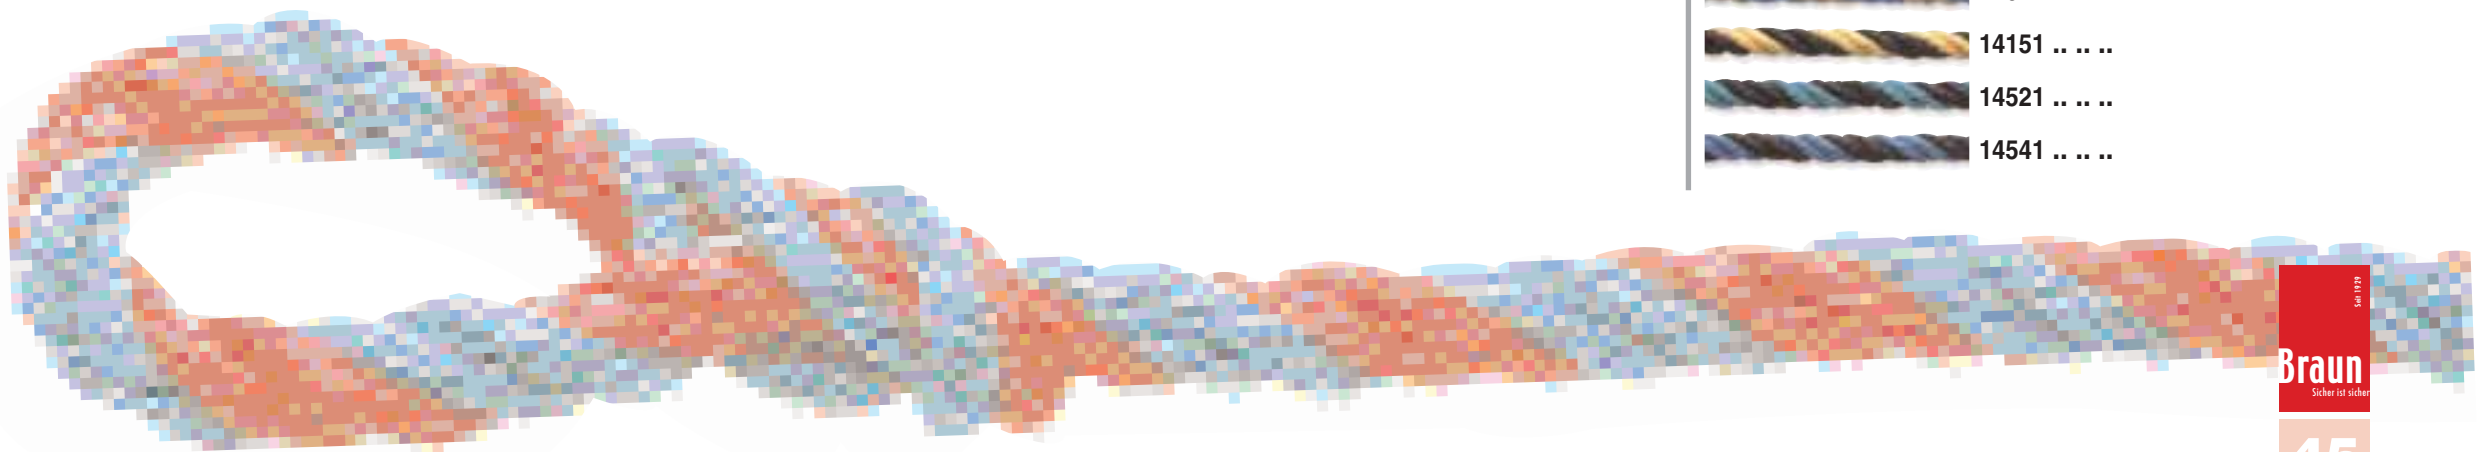

Ordering example

In other words:
You just have to take the item number from the table, and add to it the length (:15) and diameter in mm (2 figures!) along with **KS** for a small loop and **GS** for a large loop.

Available lengths:
Anything between 100 cm and 400 cm

Available diameters:
From 6-14 mm, in 1 mm steps.

Ropes

Manual elevator rope

Item no.:	Diameter in mm	Supplement
71316..KR	16	Heart-shaped thimble and ring
71316..SCH	16	1 loop
71316..2SCH	16	2 loops
71316..SIKA	16	SIKA hook
71320..KR	20	Heart-shaped thimble and ring
71320..SCH	20	1 loop
71320..2SCH	20	2 loops
71320..SIKA	20	SIKA hook

Made of **pure hemp**, twisted and particularly good grip, proven over decades, available in any length.

Ordering number explanation for manual elevator ropes

Simply enter the desired length in metres where the dots are.

Item no.:	Diameter in mm	Supplement
724616..KR	16	Heart-shaped thimble and ring
724616..SCH	16	1 loop
724616..2SCH	16	2 loops
724616..SIKA	16	SIKA hook
724620..KR	20	Heart-shaped thimble and ring
724620..SCH	20	1 loop
724620..2SCH	20	2 loops
724620..SIKA	20	SIKA hook

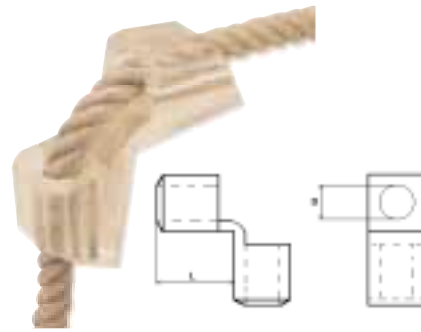

Polypropylene, beige colour, braided so very low twist, non-rotting, available in any length.

Item no.:	Diameter in mm	Supplement
714616..KR	16	Heart-shaped thimble and ring
714616..SCH	16	1 loop
714616..2SCH	16	2 loops
